Why own 100 %?

For you who want to use the cabin often, have a family, think long-term and want to make the cabin your own. You do not need to agree travel dates with anyone.

Why own a share?

For you who want to spend up to around 2.5–4 months a year here and prefer a lower price. Shares are 25 or 50 %. You have exactly the same access to the shared areas as a 100 % owner and pay a smaller part of the common costs. Co-owners agree the time split among themselves.

How long can I stay?

Visitors from most European countries can stay 90 days without a visa and can usually extend at the Federal Police in Santarém. Longer stays need residency – for example through a pension above a set amount. No vaccines are mandatory to enter Brazil (yellow fever is recommended for Pará). For longer stays, buy a Vivo SIM card in Santarém – compatible phones can then send messages by satellite even without mobile signal. Rules change: always check before you travel.

RETREAT & COMMUNITY · RIO ARAPIUNS · AMAZON, BRAZIL

The beach – the Caribbean of the Amazon

Our beach is a crescent of fine, pale sand, 1.8 km long – unusual even by Amazon standards, which is why the region is called the Caribbean of the Amazon. It takes about 20 minutes to walk from one end to the other.

In the dry season the beach is up to around 150 metres wide; after the rainy season it is normally 6–10 metres. The sandbank slopes gently out into the river and is free of stones, so it is safe and pleasant for swimming.

A 20–30-minute walk takes you to Lago Azul, the "Blue Lake": a freshwater lake 1–2 km across, fed by springs that rise from the ground. It is perfect for swimming and fishing, and many groups hold water ceremonies here.

Clear terms

- You own the cabin or a share – not the land. A land agreement gives you use of the area around your cabin and all shared areas.
- Seller: Kjetil Andreas Dreyer, founder and landowner, privately (Brazilian CPF on all contracts).
- Resale: first offered to Kjetil at your price; if he declines, you may sell freely – but not below that price.
- Heirs can take over with Kjetil's signature, keeping the original agreement.
- If the cabin wears out, you may rebuild a similar one on the same spot.
- No rental income for owners: rentals fund the shared areas, any surplus goes to a common reserve. It is a home, not an investment.
